

WEB Comfort™
Communicating Thermostats Made Simple **TRANSCEIVER LOG**

Thermostat transceiver serial number and its location

Use this chart to write down the serial number found on the back of the transceiver and the location that you place the thermostat. This information will be needed when naming the thermostats in the Web Comfort™ software program. For example:

6	AU084201604	Reception Area
---	-------------	----------------

Thermostat #	Serial Number of Transceiver	Location of thermostat and transceiver
